2.1. Validators for Email, Password and Incorrect Creds

3. Admin home page with diff Food Components

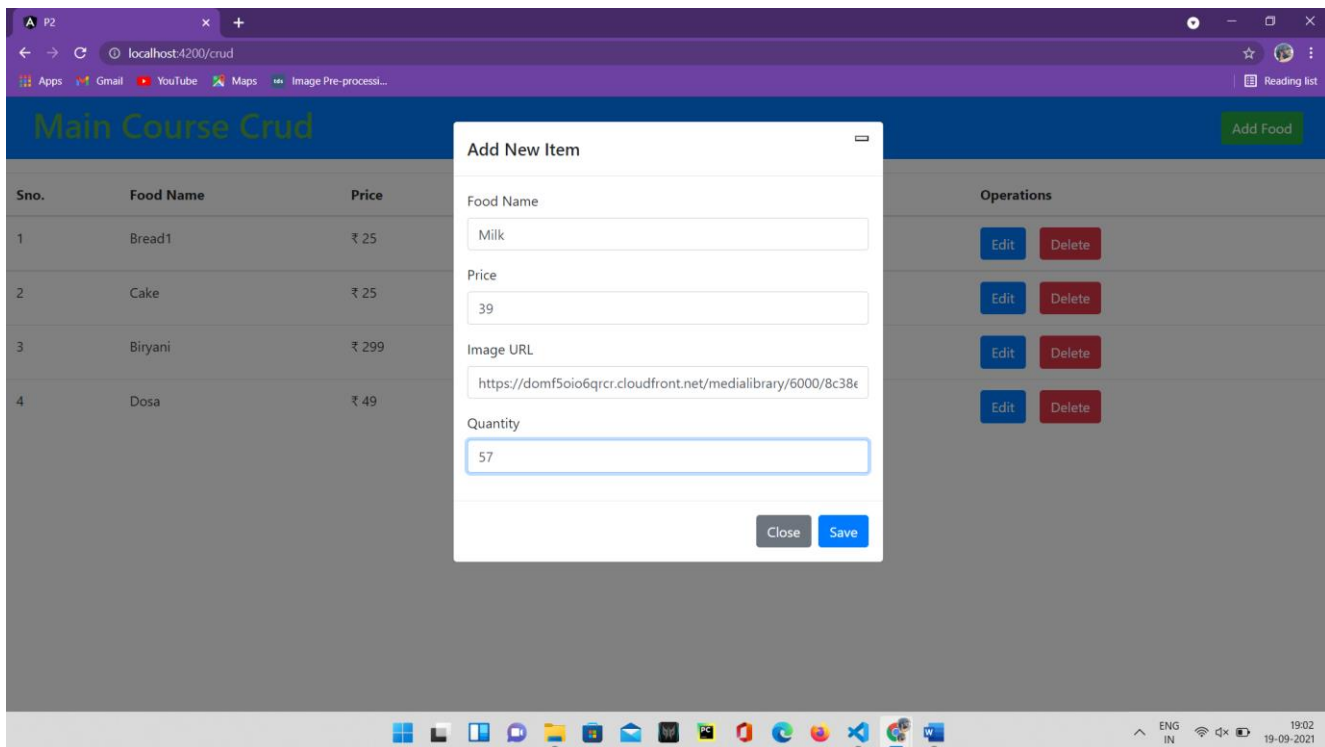

4. Admin Food Crud Operations page

The screenshot shows a web application interface for managing food items. The page title is "Main Course Crud". There is a green "Add Food" button in the top right corner. Below the header is a table with the following columns: Sno., Food Name, Price, Image URL, Quantity, and Operations. The table contains four rows of data. Each row has "Edit" and "Delete" buttons in the Operations column.

Sno.	Food Name	Price	Image URL	Quantity	Operations
1	Bread1	₹ 25	Click to View Image	20	<button>Edit</button> <button>Delete</button>
2	Cake	₹ 25	Click to View Image	25	<button>Edit</button> <button>Delete</button>
3	Biryani	₹ 299	Click to View Image	11	<button>Edit</button> <button>Delete</button>
4	Dosa	₹ 49	Click to View Image	29	<button>Edit</button> <button>Delete</button>

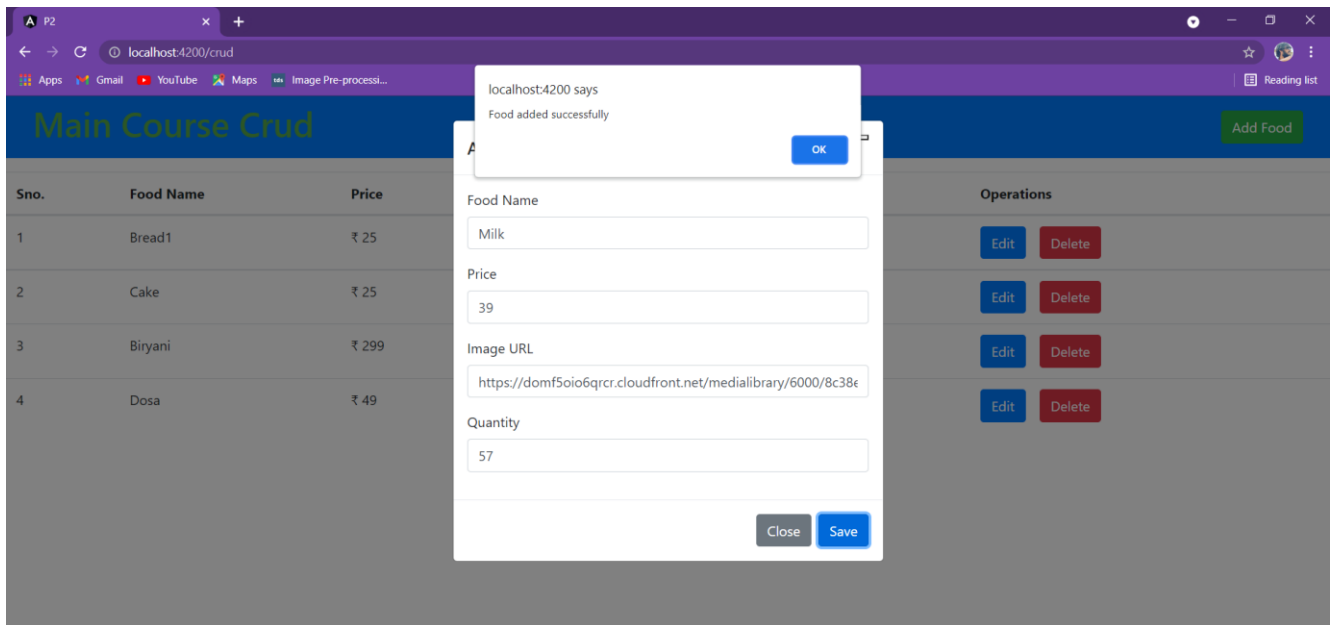

4.1. Adding a food

The screenshot shows the same web application interface as before, but with the "Add New Item" modal open. The modal contains the following fields: Food Name (Milk), Price (39), Image URL (<https://domf5oio6qrcr.cloudfront.net/medialibrary/6000/8c38e>), and Quantity (57). There are "Close" and "Save" buttons at the bottom of the modal.

Sno.	Food Name	Price
1	Bread1	₹ 25
2	Cake	₹ 25
3	Biryani	₹ 299
4	Dosa	₹ 49

4.2. Addition Conformation Prompt

4.3. Food added to the list (Highlighted in blue box)

The screenshot shows the same web application, but now the table has five rows. The new row, "Milk", is highlighted in blue. The "Image URL" column now contains a link "Click to View Image" for each item. The "Quantity" column has values for each item. The "Operations" column still contains "Edit" and "Delete" buttons.

Sno.	Food Name	Price	Image URL	Quantity	Operations
1	Bread1	₹ 25	Click to View Image	20	Edit Delete
2	Cake	₹ 25	Click to View Image	25	Edit Delete
3	Biryani	₹ 299	Click to View Image	11	Edit Delete
4	Dosa	₹ 49	Click to View Image	29	Edit Delete
5	Milk	₹ 39	Click to View Image	57	Edit Delete

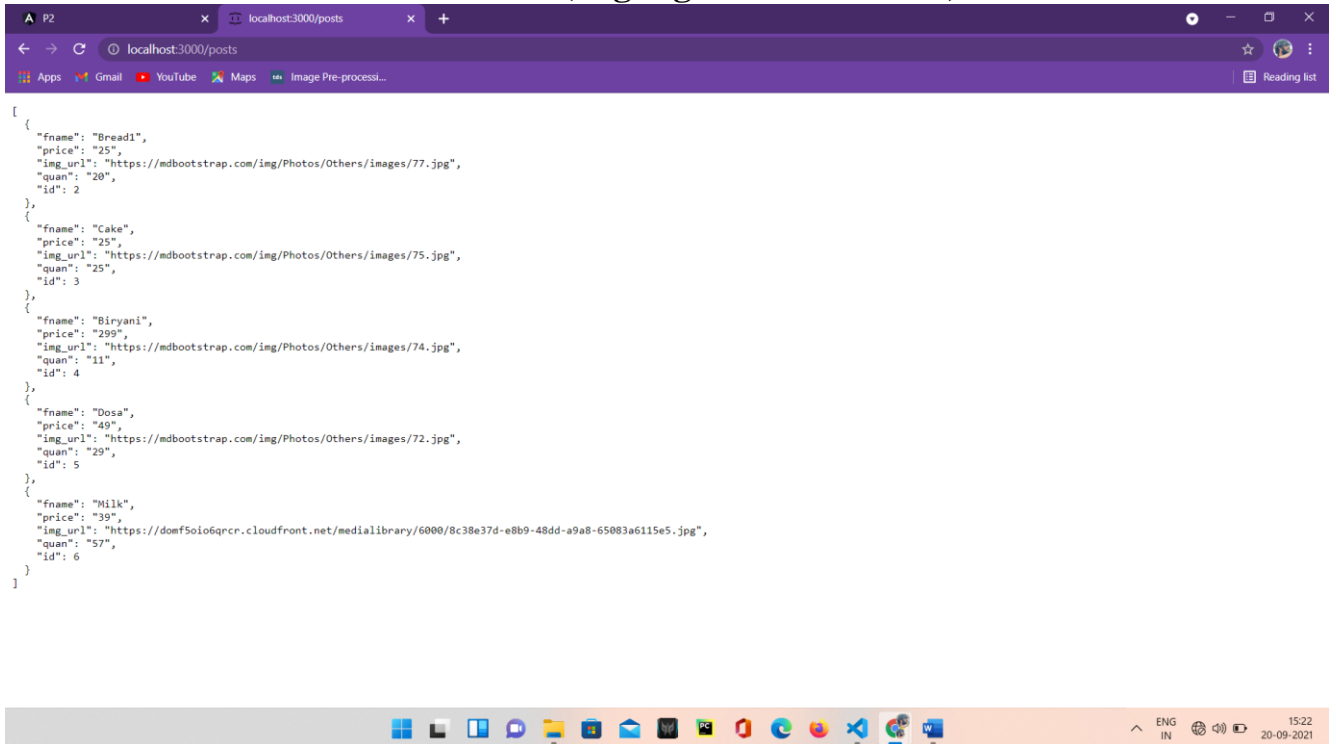

Checking the JSON server if data is present or not (Highlighted in blue box)

4.4. Deleting a Record (Prompt with food name being deleted)

Main Course Crud					localhost:4200 says	Add Food
					Food : Food4 deleted from the records	OK
Sno.	Food Name	Price			Operations	
1	food1	₹ 10	Click to View Image	5	Edit	Delete
2	food2	₹ 20	Click to View Image	3	Edit	Delete
3	food3	₹ 100	Click to View Image	19	Edit	Delete
4	Food4	₹ 45	Click to View Image	7	Edit	Delete

4.5. Record deleted from DB (Highlighted in blue box)

4.6. And from the records

Main Course Crud						Add Food
Sno.	Food Name	Price	Image URL	Quantity	Operations	
1	food1	₹ 10	Click to View Image	5	Edit	Delete
2	food2	₹ 20	Click to View Image	3	Edit	Delete
3	food3	₹ 100	Click to View Image	19	Edit	Delete

Note : Similarly, it works same for all the food components (fried rice, noodles etc.)

4.7. Admin can logout and return to home page (as shown in red box)

5. Order Page (Customer Interactions)

The screenshot shows a web browser window with the URL `localhost:4200/order`. The page has a dark purple header with the text "ShopKit Orders" and a search bar. Below the header, there are two main sections: "Food Items" and "Cart Items".

Food Items Table:

Sno.	Food Image	Item name	Price	Operations
1	Click to View Image	Bread1	25	<button>Add Item</button>
2	Click to View Image	Cake	25	<button>Add Item</button>
3	Click to View Image	Biryani	299	<button>Add Item</button>
4	Click to View Image	Dosa	49	<button>Add Item</button>
5	Click to View Image	Milk	39	<button>Add Item</button>

Cart Items Section:

Enter Name

Generate Bill

Item	Price
------	-------

Total Bill : ₹ 0

(Customer can add available food to cart (by pressing add button))

5.1 Selected items will appear in food cart (as highlighted in red box)

The screenshot shows the same web browser window as before, but now the "Cart Items" section is populated with the items from the "Food Items" table. A red arrow points from the "Add Item" button in the "Food Items" table to the "Cart Items" table.

Food Items Table:

Sno.	Food Image	Item name	Price	Operations
1	Click to View Image	Bread1	25	<button>Add Item</button>
2	Click to View Image	Cake	25	<button>Add Item</button>
3	Click to View Image	Biryani	299	<button>Add Item</button>
4	Click to View Image	Dosa	49	<button>Add Item</button>
5	Click to View Image	Milk	39	<button>Add Item</button>

Cart Items Section:

Enter Name

Generate Bill

Item	Price
Bread1	25
Cake	25
Biryani	299
Dosa	49
Milk	39

Total Bill : ₹ 437

5.2 User needs to enter name and press the button to generate bill

The screenshot shows the ShopKit Orders web application. The 'Food Items' table lists five items: Bread1, Cake, Biryani, Dosa, and Milk. The 'Cart Items' section shows the items added to the cart and their prices. The total bill amount is ₹ 437. The user 'Arvind' has entered their name in the search bar, and the 'Generate Bill' button is highlighted with a red arrow.

Sno.	Food Image	Item name	Price	Operations
1	Click to View Image	Bread1	25	Add Item
2	Click to View Image	Cake	25	Add Item
3	Click to View Image	Biryani	299	Add Item
4	Click to View Image	Dosa	49	Add Item
5	Click to View Image	Milk	39	Add Item

Item	Price
Bread1	25
Cake	25
Biryani	299
Dosa	49
Milk	39

Total Bill : ₹ 437

5.3 A modal will appear with the bill (as shown in red box)

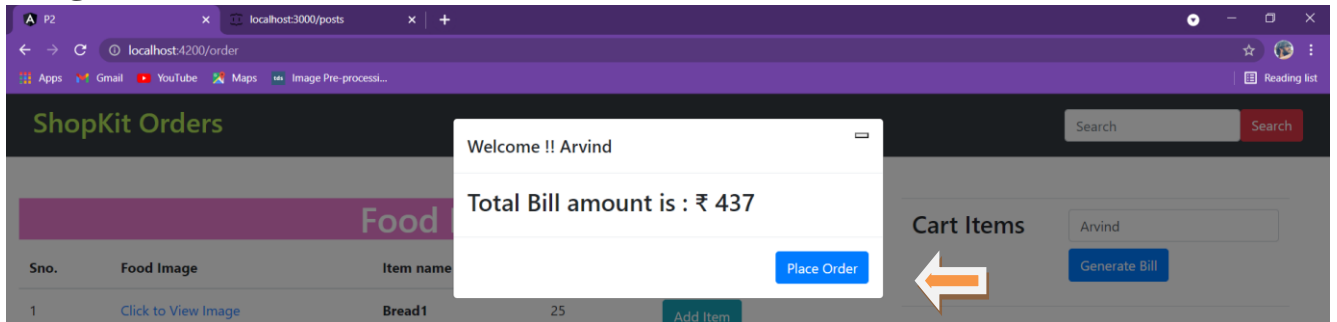

The screenshot shows the ShopKit Orders web application with a modal dialog box displayed. The modal contains the text 'Welcome !! Arvind' and 'Total Bill amount is : ₹ 437'. The 'Place Order' button is highlighted with a red arrow.

Sno.	Food Image	Item name	Price	Operations
1	Click to View Image	Bread1	25	Add Item
2	Click to View Image	Cake	25	Add Item
3	Click to View Image	Biryani	299	Add Item
4	Click to View Image	Dosa	49	Add Item
5	Click to View Image	Milk	39	Add Item

Item	Price
Bread1	25
Cake	25
Biryani	299
Dosa	49
Milk	39

Total Bill : ₹ 437

5.4 User needs to click the button in order to place order (as shown in green box)

5.5 Second modal will appear with order status
